

Hallo.

my name is sojin jung and I'm currently attending JBNU.

First I divided my self-introduction into three parts. part1. About me, part2. Key Words, part3 is About my future.

First part is about me.

My name is Sojin Jung and I'm a student in the major of electronic engineering at JBNU university, I'm 20years old and 2<sup>nd</sup> grade. My e-mail, and contact number, address is on the right. Of course. These days I'm live in Dresden youthhostel.

My MbtI is ESTP and I like animal and people. My motto is 'Just Do It'. I'm so love it these sentence. So I'm stand here! Yhea! and this is my hobby I like formula1 and baking brot and cookies.

Then I will tell you about My history. My high school life was a time to find my the major path. Then I chose the path of engineering.

And When I go to the university my life is all changed. Because I I started learning about electronics professionally.

And I tried to have more social experience. For a last year, I worked in library to help my librarians. Also I worked at bakery store. I saw many people, and I learned how to communicate. also I get result in university. when I was in first grade, I won the basic engineering design contest. also I Awarded academic support program participation essay contest. In 2022, I learned the italian in an beginner's class camp, And I had time to explore various design works by working as a judge at the Engineering Festival.

My part two is Key word.

I have a challenge spirit, and enthusiasm, communication skills, ofcours anything eles.

This is my SWOT. My strength is the high ability to collect information and cognitive ability. My Weakness is that I have a perpflectionst personality, so sometime I get a stressed. Also, my opportunity is that I always find a breakthrough for growth with a lot of challenging spirit. The treat is weak physial strength.

Part3 is about my future.

I'm coming here, and I want learn more, so I try focusing three point.

One, I want more develop my creative thinking that is I can generate more creative ideas with new perspectives, to improve my major knowledge, and to meet many people.

So I want to try my best, If I have som shortage, saw my try spirit.

And Do you have any question?

Thanks you.
